

PRESS RELEASE

BIORIGINAL FOOD & SCIENCE CORP. LICENSES CLEVOR SCHEDULE OPTIMIZER

Saskatoon, Saskatchewan, January, 5, 2010 – Clevor Technologies Inc. announces that Bioriginal Food & Sciences has licensed Clevor Schedule Optimizer for its facility located in Saskatoon.

Ravi Maithel, President of Clevor Technologies Inc. said, “We are very happy about this agreement. We believe that this will lead to a much better control of cost and delivery dates by Bioriginal and to satisfaction by their customers. ”

About Bioriginal Food & Science

Bioriginal Food & Science Corp. is a global provider of innovative essential fatty acid (EFA) solutions. Their products are used in nutraceuticals, functional foods, skin care products, skin care products, cosmetics, animal feed, veterinary products and over-the-counter pharmaceuticals. They have offices and facilities in Canada, the United States, Europe and China, enabling international distribution of their innovative EFA products.

About Clevor Technologies Inc.

Clevor Technologies Inc. has developed and markets a suite of Schedule Optimizer software tools for manufacturers, construction companies, and professional services companies. Clevor Schedule Optimizers build a schedule that “optimizes” a given business objective. These software tools use a patent-pending intelligent systems-based high performance optimization engine developed by Clevor. These solutions help build a significant competitive advantage for its users.
